Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner called applicants' representative to propose an amendment in order to put the application for allowance. It was indicated to applicants' attorney that claim 17 as amended is still anticipated by the cited reference, Smigo et al., because the composition of the reference is added to the size press at the dry end of the paper machine. At that point the web is not completely dried, and therefore the reference still reads on those claims. It was proposed to include the limitations of claim 25 onto claim 17 to clearly define that the composition was added at the pulping or wet end of the papermaking process. Mr. Cassidy agreed with the changes. .
